

neXus: car-rot

Hello, we're CAR-ROT, your new premium car rental service. We know you're always busy. No time to wait for your cab. So let us take care of that, we're really good at it, we promise!

About the site:

- This site is build from scratch only for neXus using html,css and js.
- A particular theme have been followed throughout the website.
- Website is deployed at AWS and is powered by nginx.
- Website can handle upto 50k-80k concurrent requests per second.
- Site is also DDOS protected by cloudflare.
- Website allows only https traffic.
- All images used in the site are optimized.
- Appropriate use of meta tags are done.
- Site also contains backlink to all IETE handles.
- Webiste is also 100% responsive across multiple screens.

Theme of website:

This is based on the concept of a car rental website, here we can rent any Suv, Sedan, Hatchback, Luxury cars etc. at most nominal cost!

I have tried to keep it as minimal as possible

Theme color - #e67e22, #cf6d17

Font family - 'Lato', 'Arial', sans-serif

Icons - Fontawesome

Libraries:

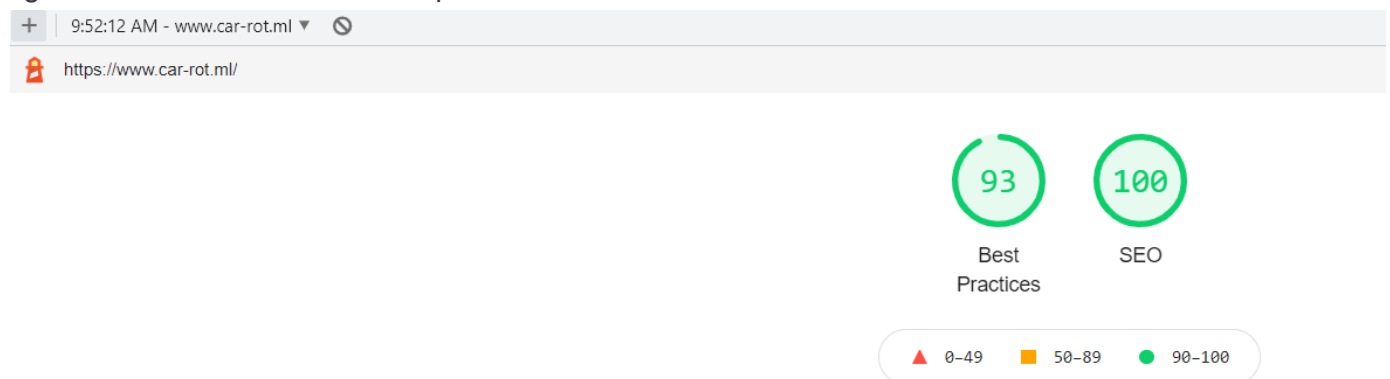

- Animejs, wowjs, jquery, waypoints, particlejs.

Section/Pages in website:

- Landing page(About us, Featured cars, How we work, Metrix, Testimonials, Contact us, Footer)
- Login page
- Book now page
- Checkout page

SEO:

All care have been taken for best practices and to improve the sites seo, below is an image of chrome lighthouse test for seo and best practices:

We got 100% seo optimisation and 93% best practices according to chrome lighthouse

Workflow:
